SUPPORTED LIVING

18-65 YEAR OLDS

Fari Care provides Supported living Services for adults aged 18 to 65 years old.

The people we accommodate and support have varying needs which may include:

- Autistic spectrum disorder
- Mental health issues
- Challenging behaviour
- learning disabilities

"Supporting you to an independent life"

OUR VISION

We firmly believe people can excel when surrounded by supportive and nurturing carers in a welcoming and friendly home environment within their local community. We aim to **empower** our clients, through **independence** and **choice**.

Our aim is to create a service that provides a seamless transition for individuals as they progress between higher and lower care requirements.

LOCATIONS

We are located in the lovely leafy **London boroughs of Redbridge, Havering and Newham.**

We can also offer options in various other London locations.

Our supported living homes are normal residential houses located close to parks, shops, doctors and other amenities including leisure activities. In addition the locations have fantastic transport links within walking distance.

Fari Care **Accommodation** offers newly refurbished residential properties with a maximum of 6 bedrooms. We aim to offer en-suite rooms for maximum convenience and privacy. The houses include lovely communal spaces including living rooms, dining rooms and well kept gardens.

At Fari Care we fully embrace the NHS '**Building the right homes**' agenda. We understand our clients have the right to choice of where they would like to live and offer them **equal opportunity housing rights.**

We ensure they are given **secure tenancies** that are not tied to the care they receive from us. We have teamed up with a property company, **Abbotts Rose Ltd** a recognized housing provider to ensure our clients have access to a large choice of suitable housing options. This collaboration allows us to provide housing that can be **customized to our clients needs and requirements.**
